

Abbott Laboratories “BinaxNOW” COVID-19 Test Kit for U.S. Re-Entry Test Kit User Guide

Before Your Departure:

- 1. Purchase a Test Kit**
- 2. Register for Your Test**

1. Purchasing a Test Kit

The Abbott test kit can be ordered several different ways. **We recommend that you order your test kits two weeks prior to your departure.**

1. From the [United Airlines website](#)

You will be directed to either Optum or eMed's website to complete your purchase, depending on the number of kits you order.

2. From the [American Airlines website](#)

From this page, you will be directed to eMed's website to purchase a test kit.

3. Directly from the [eMed website](#)
(6-pack kits only)
4. Directly from the [Optum website](#)
(2- or 3-pack kits only)

What Are the Technical Requirements?

The device you bring with you to take the test must:

- Be internet enabled with an updated internet browser (Safari, Chrome, Edge, Samsung Internet). It is recommended that iPhone users use Safari browser for registration and testing purposes.
- Have a microphone, speakers, and a front-facing webcam or camera

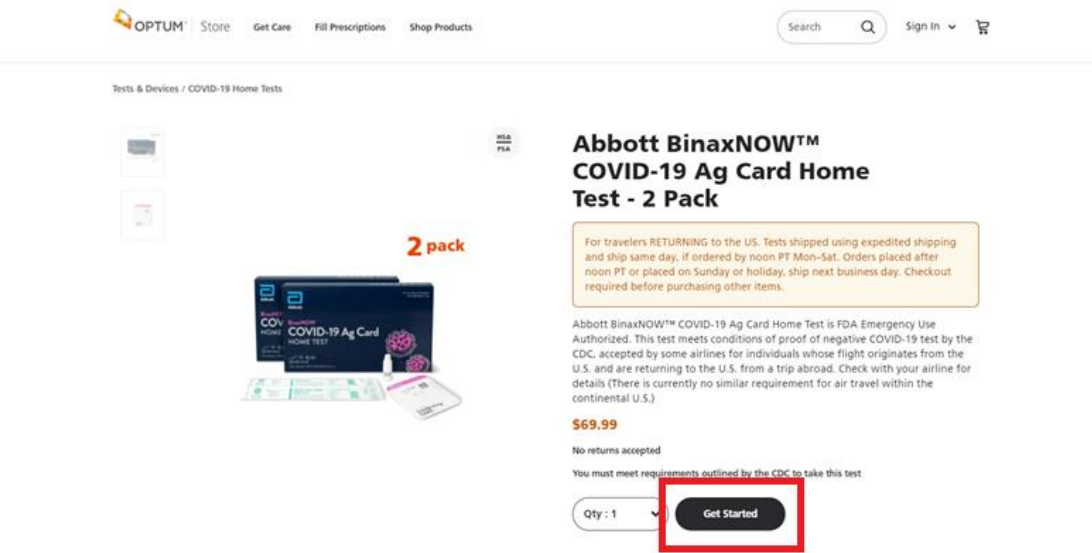

Each person taking a test must have an individual email account as well as the ability to log in to that account.

One email address per person.

A single email account shared with multiple persons is not compatible with this experience.

In this example, a 2-pack test kit was ordered from the Optum website.

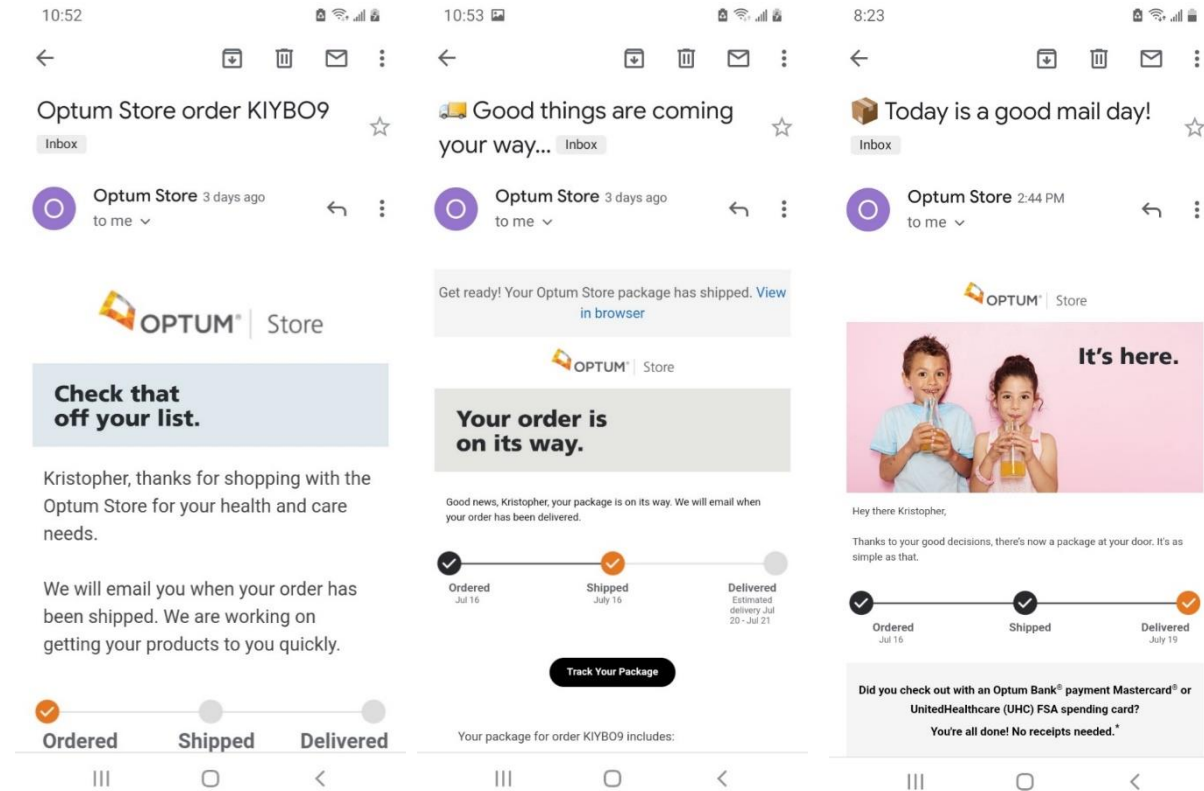

Click on “Get Started” on the Purchase Page.

A questionnaire will launch. Fill out the questions as they pertain to you.

At the end, click on “Proceed to checkout” and enter in your information to complete your purchase.

After your purchase, you will receive a receipt and an email confirmation for your order.

You will receive an email when your test kit is shipped, and another when it is delivered (around 3 business days).

When you receive your test kits in the mail **do not open the individual kits.**

You should pack a minimum of two test kits per person in your carry-on luggage. Do not pack only one test kit per person – if there are issues on tour, you will not have a backup!

The next step is to register (next page). Collette strongly recommends that you complete your registration before departing for your tour.

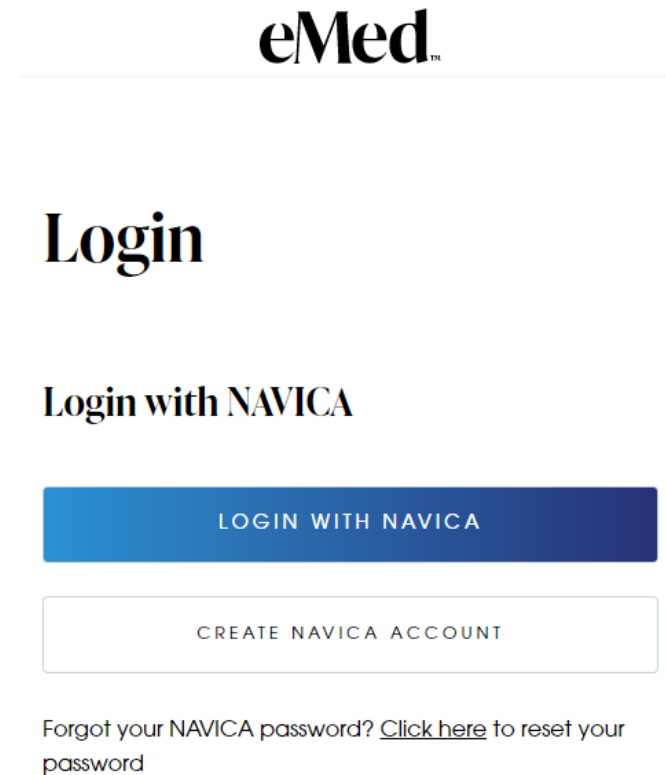

2. Registering for Your Test

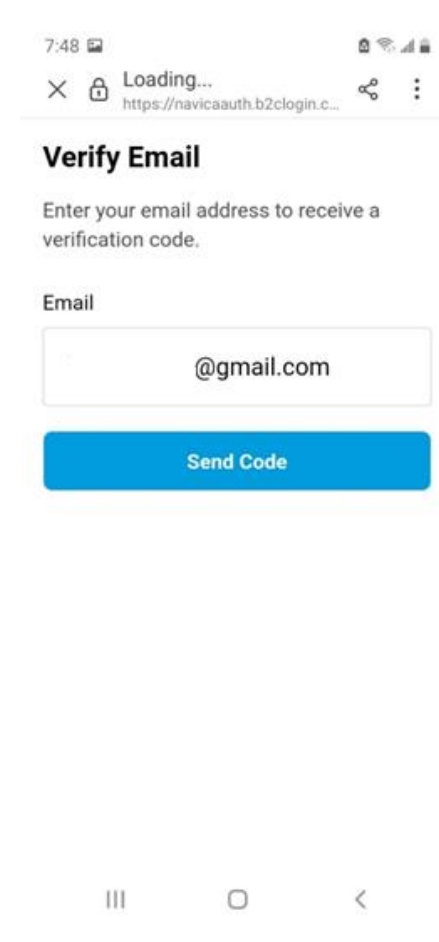

Navigate to www.emed.com and click on “Start Test”

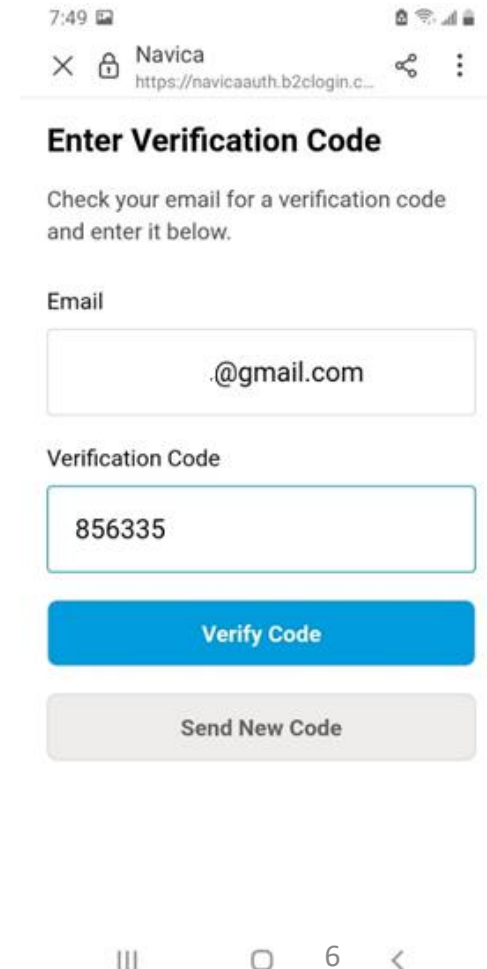

Select “Create Navica Account” and follow the on-screen prompts.

Enter an email address for verification. A one-time-code will be sent to this email address.

Enter the code from your email to verify.

Proceed according to the on-screen prompts.

Ensure that your name matches your travel documents.

Create Your Password

Password Requirements

- 8 to 24 characters

Must contain 3 of the 4 following:

- 1 lowercase letter
- 1 uppercase letter
- 1 number
- 1 symbol

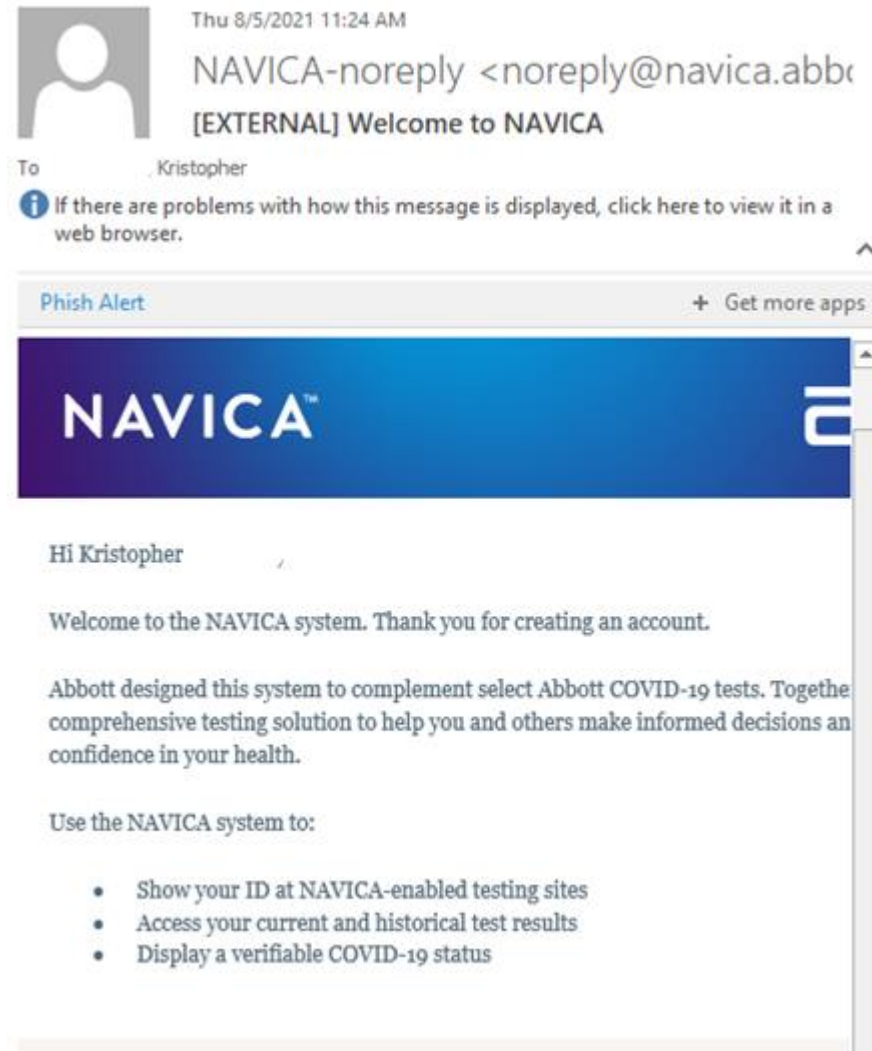

Create Password

Confirm Password

Set Password

When you have filled out all of the information, your Navica registration is complete.

You will receive an email confirming your registration.

Be sure to write down your login and password in a safe place and bring it with you on tour. You will need it to complete the testing. 😊

During your tour:

3. Take the Test

4. Receive Your Results

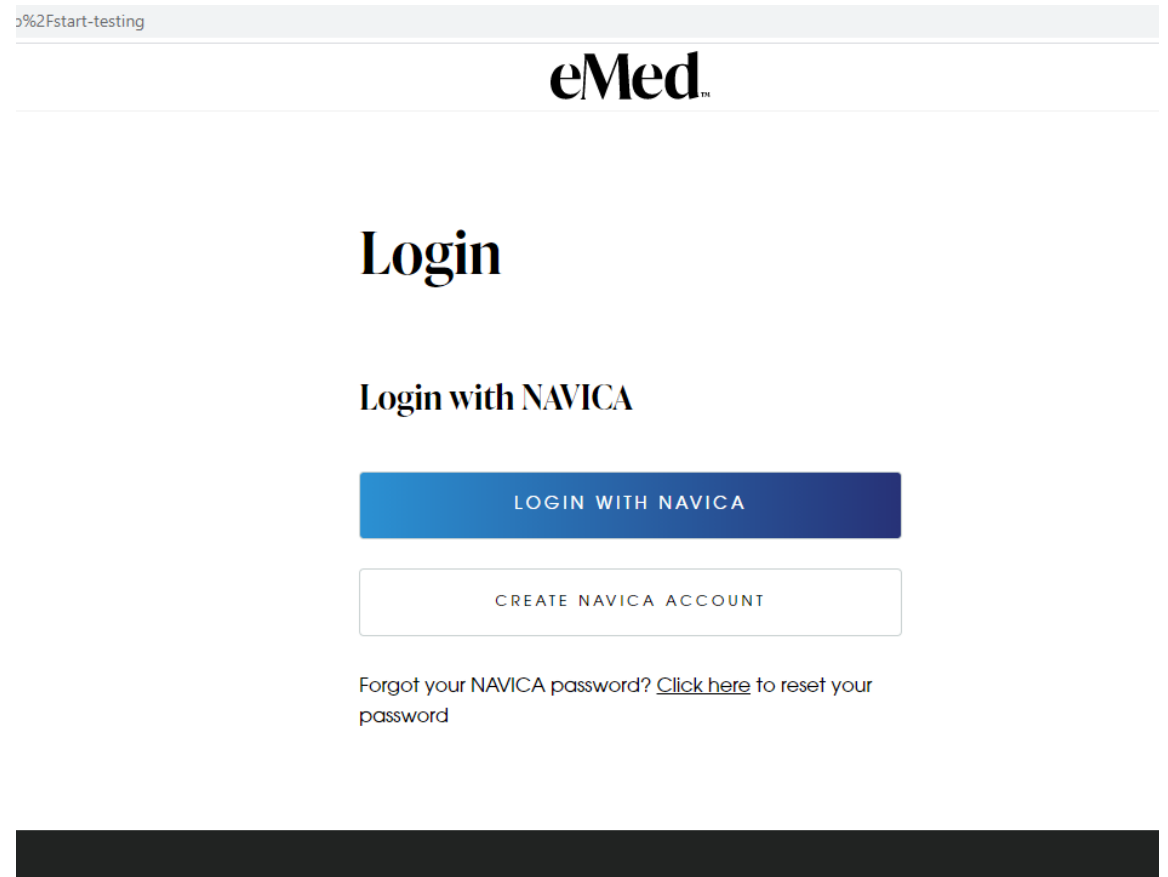

3. Taking the Test

Before starting, ensure that you have at least 30 minutes of uninterrupted time to take the test.

Open your device’s internet browser, navigate to www.emed.com, and select “Start Test”.

Select “Login with Navica”. Using your account information, login and follow the prompts on screen.

Fill out the prompts on-screen as they apply to you. Before continuing:

- Ensure that your testing location has a broad, flat surface and that there is something on the desk/surface you can prop your device up against.
- If you are traveling with someone else, plan to take the test one at a time. One person should assist the other during the test by holding the device.

You have to be in constant view of the camera during the test. You will need both hands free to take the test.

When you are ready to begin testing, click “Join Guided Session” at the bottom of the page.

Follow the prompts on the screen to be connected to a testing proctor.

The screenshot shows a web browser window with the URL `emed.com/app/start-testing`. The page header includes "Shop" and "Contact" links, the "eMed" logo, and icons for a user profile and a shopping cart. The main content area displays the following text and form elements:

This test will take about 25 minutes

Check our [technical requirements](#) to confirm your device is equipped to join a Guided Session.

Do you have the unopened test available?

Yes
 No

Are your hands washed, sanitized, and dry?

Yes
 No

You will be asked to present your ID to the eMed Certified Guide. Do you have a **valid photo-ID with you**?
Valid forms include driver's license, passport, passport card, birth certificate, state-issued identification card, military ID card, and official school ID.

Yes
 No

Is this your first COVID-19 test?

Yes
 No

Once you are connected, the proctor will guide you through the test, step by step.

Here are the steps you will follow:

1. Show your ID.
2. Open the test kit when instructed.
3. Hold up your test card - the QR code will be scanned by camera.
4. Squeeze 6 droplets of liquid into the test card as directed.
5. Swab each nostril five times.
6. As directed, insert swab into card and rotate.
7. Close test card with adhesive strip
8. Wait for results (next slide)

1 Set Up

DO NOT open items until instructed.

A. Open your test kit.

B. You should have:

- 1 Test Card
- 1 Dropper Bottle
- 1 Swab

BINAXNOW COVID-19 Ag CARD HOME TEST KIT

Abbott

eMed. BINAXNOW COVID-19 AT HOME TEST

If you are disconnected during your session, click the box in the lower right corner to reconnect. If you need to speak with customer service for any reason, ensure that you dial “011” before the phone number to make an international call.

The proctor will set a timer on the screen for 15 minutes.

You will wait 15 minutes for your test result to process.

Do not disconnect from the session or touch the test card during this time.

When the timer reaches 0:00, you will be prompted to continue.

Follow the on-screen prompts to be reconnected to a testing proctor.

The screenshot shows a web browser window with the URL `lab.emed.com/procedure/binaxnow?hsLang=en`. In the top right corner, there is a video call window showing a blurred background. Below the video window are icons for microphone and settings. The main content area features a large instruction box with the following text: **12 Wait 15 Minutes**, **DO NOT disturb card during this time.**, a circular timer showing **15:00**, and a note: *Note: False results can occur if the card is disturbed/moved or test results are read before 15 minutes.* The eMed logo is visible in the bottom left corner, and the text **BINAXNOW COVID-19 AT HOME TEST** is in the bottom right corner.

14:25

When you are connected to the testing proctor, they will explain the results of your test based on what is displayed on your test card.

Your test is complete.

You will receive your results by email within 60 minutes.

4. Receive Your Results

Following your test, you will receive an email which contains your test results as a secure PDF attachment.

Enter in your birthday in MMDDYYYY format to unlock the document.

Ensure that you download a copy of your results to your device, as well as take a screenshot of your results and save them to your photos.

When you check in for your flight home, you will need to show a copy of these results.
